

Summary of Responses

Respondent	Comments
Highways England	Notes that the adopted Local Plan allocates 100 homes in Wolvey
	No strategic employment sites allocations, Policies E1, E2 and E3 support existing businesses
	Do not wish to make comment on matters relating to the highway in the village, as covered by community actions T1, T3, T4, T5 and T7
	Comments noted on the A5/M69 roundabout (Community Action T2). No improvements are planned but the performance of the Strategic Road Network is monitored. However, Highways England would need to be consulted on any proposed improvements in the vicinity of the A5. Do not expect any impacts on the Strategic Road Network from the NDP
Natural England	No specific comments to make
Coal Authority	No specific comments to make
Avison Young OBO National Grid	No electricity and gas transmission assets within the Neighbourhood Area
Ministry of Defence	Gamecock Barracks is a historic 100ha site with 600 plus military staff and 115 civilian staff. Designated a 'receiver' site within the Defence Estate Optimisation Programme (DEOP), which seeks a 30% reduction in the MOD estate by 2030. Better Defence Estate Strategy (published Nov 2016) identifies Gamecock Barracks. Gamecock Barracks makes a positive contribution to the local economy. NPPF Para 97 requires planning policies to take into account wider security and defence requirements. Would like to see section of the NDP about the history of the site, support for its continuing presence and references in principle support for further development, subject to green belt constraints.
	Policy S1- Should reference green belt designation
	Community Action T5- Public Transport. MOD happy with action for improved bus services. MOD happy to work with the Parish on this
Historic England	Pleased that recommendation at Reg 14 to incorporate archaeology into the plan have been taken account of. Other Reg 14 comments remain: plan has a thorough approach to historic environment, emphasis on conservation to be applauded and Historic England consider the plan a good example of community-led planning.
